

Dear Coalition Members,

Thank you for getting those letters of intent back to your HOA's or representatives. As of today, 742 home owners have registered - This total represents over 80% of the community. When talking with your friends and neighbors please be sure to encourage them to get this letter of intent into the coalition if they have not done so already. The greater the number, the stronger our leverage will be when negotiating terms.

On the negotiation front: Our lawyer, Mark Nastri, has reached out to multiple gas companies and is in the process of setting up initial meetings. We are very encouraged by the interest of multiple gas companies and hope to start real negotiations soon. However, please be aware that these negotiations may take several months, and your patience is greatly appreciated.

While PFM keeps pushing for everyone to sign up with them now with heavy sales tactics and signing parties, we encourage you to remain committed to our coalition. At a coalition solidarity level of 80%, don't be fooled by these signing parties. When our party comes, we will let you know, and the real party will begin.

There is a strong track record of north Texas coalitions negotiating substantially better deals than the initial offers from the gas companies and we firmly believe that we can achieve the same success. As always, it remains your right to proceed as you see fit.

Sincerely,

Your Negotiating Team

Phil Frink
